Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Part III DETAILED ACTION

Notice to Applicant(s)

1. This application has been examined. Claims 1-40 are pending.

Information Disclosure Statement

2. The references listed in the Information Disclosure Statement dated 10/10/2000 have been considered by the Examiner and is attached to this Office Action.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 22, 24, 25, 27, 28, 30, 31, 33, 35, 36, 37, 38, 39, and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Hower, Jr. et al (Hower) (U.S. 5,467,434).

With respect to claims 1, 3, 4, 5, 7, 10, 11, 12, 14, 15, 16, 17, 19, 20, 22, 24, 25, 33, 35, 38, and 39, Hower discloses a method of managing print services provided by a print provider (12) comprising defining a print managing system controller (25) having the print services provided by the print provider registered therein (column 4, lines 28-40); defining a network communication link between the print provider and the print managing system controller (column 3, lines 35-66); receiving a job ticket for a print job at the print managing

Art Unit: 2626

system controller (column 3, line 67 to column 4, line 11); determining if the print provider has the print services to fulfill the print job, including comparing the job ticket for the print job with the print services provided by the print provider (column 4, lines 49-64), and distributing the job ticket for the print job to the print provider via the network if the print management system controller determines that the print provider has the print services to fulfill the job (column 2, lines 32-50).

With regard to claim 6, Hower discloses receiving the print job from another print provider (column 3, lines 50-66).

With respect to claims 8 and 30, Hower discloses the job ticket includes quantity and finishing options (column 4, lines 1-12).

With regard to claims 9 and 31, Hower discloses associating a data file (print job) with the job ticket (column 4, lines 1-12).

With respect to claims 13, 36, and 37, Hower discloses the printer profile includes a print medium capability (column 5, lines 13-14).

With regard to claims 18 and 40, Hower discloses tracking a status of the print job (column 9, lines 24-30).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2, 21, 23, 26, 29, 32, 34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hower in view of Keane et al (Keane) (U.S. 6,650,433).

With respect to claims 2, 21, 23, 26, 29, 32, 34, Hower differs from claims 2, 21, 23, 26, 29, 32, 34 in that he does not clearly disclose an Internet communication link. Keane discloses a method for managing print jobs wherein print jobs are transmitted from a print job managing system (10) to printing stations via the Internet (column 7, lines 45-54). Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Hower wherein an Internet link is used to transmit jobs from the managing system to the printer. It it would have been obvious to one of ordinary skill in the art at the time of the invention to have modified Hower by the teaching of Keane in order to allow a greater number of users to access the system as disclosed by Keane in column 7, lines 45-63.
